

Press Releases

- Jun 04, 2026** [Chemical Engineering's Expanding Frontier: ChemE Show 2026 Opens June 9–10 in Houston](#)
A two-day program brings petrochemicals, pharma, and the energy transition together—featuring high-profile keynotes from industry and consulting
- Jun 01, 2026** [Hubs4Circularity Community of Practice initiative delivers blueprint for scaling industrial\(-urban\) symbiosis across Europe](#)
Over the past four years, a network has been established supported by a dedicated Knowledge Platform and practical tools helping regions and industries accelerate the circular transition.
- May 20, 2026** [ACHEMA 2027 opens Call for Papers](#)
ACHEMA 2027, the world forum for chemical and pharmaceutical engineering, process engineering, biotechnology and industrial environmental technology, and the world's leading trade show for the life science and process...
- May 13, 2026** [Chemical Industry in Transition: New Report Analyses the Status Quo and Outlines Strategies for Competitiveness amid Transformation](#)
New pathways up to 2050 for the highly integrated and strategic chemical cluster in Flanders, the Netherlands, and North Rhine-Westphalia are outlined
- Feb 17, 2026** [Johann Wolfgang Döbereiner Doctoral Prize for Dr. Jeroen T. Vossen, Max Planck Institute for Chemical Energy Conversion](#)
This award recognises his outstanding doctoral thesis in the field of catalysis on: "Selective carbon chain building from synthesis gas."
- Feb 10, 2026** [Jochen Block Prize 2026 awarded to TT Prof. Dr. Schirin Hanf, Karlsruhe Institute of Technology, and Dr. Alexis Bordet, Max Planck Institute for Chemical Energy Conversion](#)
In 2026, the Jochen Block Prize of the German Catalysis Society (GeCatS) will be awarded to two outstanding scientists for their exceptional achievements
- Feb 04, 2026** [Otto Roelen Medal 2026 for Uwe T. Bornscheuer, University of Greifswald](#)
DECHEMA and the German Catalysis Society (GeCatS) recognise his outstanding contributions to the identification of enzymes from various classes combined with protein engineering for pharmaceutical and chemical industry...
- Jan 28, 2026** [ACHEMA Start-Up Award 2027: Looking for Innovations in life sciences and the process industry](#)
Apply now! The team with the most convincing business plan gets 15,000 Euro prize money!
- Jan 12, 2026** [ISC3 Launches Innovation Challenge 2026: Advancing Sustainable Chemistry for Electronics](#)
Apply now for the €25,000 endowed seventh international start-up competition
